A Bachelor of Informatics Engineering graduate from Universitas Pembangunan Nasional “Veteran” Jawa Timur (2025), with a strong foundation in software development. A passionate individual with a strong enthusiasm for technology and innovation, currently exploring full-stack web development. Highly motivated to build a career in Software Engineering, Cyber Security, and Web Development. Proficient in JavaScript, TypeScript, React, API integration, and modern libraries and frameworks. A lifelong learner dedicated to improving skills and finding purpose through continuous growth in the fields of web, mobile, cyber, cloud, and emerging IT technologies.

EXPERIENCE

PT Santai Berkualitas Syberindo (Sanbercode) <i>Software Developer, Internship</i>	Bandung, ID October 2025 – April 2026
<ul style="list-style-type: none">Developed a donation crowdfunding website using Laravel, covering both frontend and backend development to deliver a stable and scalable platform.Successfully resolved critical bugs and functional issues, resulting in a smoother user experience and a reduction in user-reported issues.Successfully implemented role-based access for administrators, ensuring secure and structured management of system features.	
PT Aksamedia Mulia Digital (Aksamedia) <i>Frontend Developer, Contract</i>	Surabaya, ID January – March 2024
<ul style="list-style-type: none">Developed an academic information system consisting of 3 entities including the administrator, teacher, and student using React, Typescript and Chakra UI.Analyzed, researched, and integrated several third-party systems or libraries as a solution to increase development time efficiency and system needs.Implemented highly scalable and reusable components, layouts, and user interfaces using React TypeScript.	
Frontend Developer, Internship	August – December 2023
<ul style="list-style-type: none">Successfully integrated APIs to improve data interaction and seamlessly implemented them into the frontend.Effectively identified and fixed bugs on the web platform, contributing to a smoother user experience.Actively participated in the development process by implementing new features.	

FORMAL EDUCATION

Universitas Pembangunan Nasional “Veteran” Jawa Timur <i>Computer Science Major, Department of Computer Science</i>	Surabaya, ID 2021 - 2025
<ul style="list-style-type: none">Final GPA(IPK): 3.86/4.00Completed backend development training using Express.js with TypeScript under the Google Developer Student Club UPN “Veteran” Jawa Timur (2021).Final Project: Developed a web-based academic journal search application for faculty members using Semantic Web concepts, leveraging ontology, RDF, and OWL to enable structured knowledge representation and intelligent information retrieval.	

INFORMAL EDUCATION

PT Orbit Venture Indonesia (Orbit Future Academy) <i>AWS re/Start Batch 13, Student</i>	Bandung, ID Okttober – December 2025
<ul style="list-style-type: none">Learned core AWS infrastructure components, including compute, storage, networking, and security fundamentals.Studied cloud technologies and best practices for deploying, managing, and scaling applications in cloud environments.Completed hands-on learning supported by AI-driven training tools to enhance understanding and practical cloud skills.	
PT Hacktivate Teknologi Indonesia (Hacktiv8) <i>IBM SkillsBuild For AI & Cybersecurity, Independent Study Kampus Merdeka</i>	Surabaya, ID February – June 2024
<ul style="list-style-type: none">Participated in an intensive IBM SkillsBuild program focused on AI and cybersecurity.Acquired advanced knowledge and practical skills in artificial intelligence and cybersecurity concepts.Completed various projects and assignments from mentor.	
PKS Digital School <i>Bootcamp React JS Frontend Web Development, Student</i>	Surabaya, ID May – June 2023
<ul style="list-style-type: none">Gained a strong foundation in web development using HTML, CSS, and JavaScript.Implemented RESTful API integration within React applications.Developed responsive web applications using React with TypeScript, emphasizing component-based architecture and clean code practices.	

- Learned and applied modern frontend technologies including HTML, CSS, JavaScript, TypeScript, React, and Next.js.
- Built web applications using React and Next.js, focusing on performance and maintainability.
- Worked collaboratively in a team to build a full-stack web application.
